

Portable Ozone Sensor

Portable Ozone Sensor

A-21ZX Ecosensor Ozone Monitor quickly measures ambient ozone levels. 0.02-9.99 PPM range. 8 hr battery life.

Features

- Small size and high sensitivity
- Ease of calibration and service
- Low warm-up time
- Very simple operation
- Carry Pouch for Belt Included

Product ID: **A-21ZX**

In Stock: **Yes**

Price: **\$689.00**

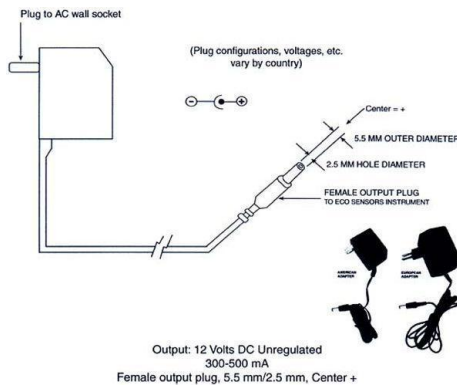

Specifications

Range:	0-10 ppm; sensitivity as low as 0.02 ppm
Display:	digital readout in 0.01 ppm increments
Measurement principle:	HMOS (heated metal oxide semiconductor) sensor
Size:	50 x 100 x 25 mm (2 x 4 x 1 in)
Weight:	170 grams (6 oz)
Power requirements:	12 VDC unregulated; AC adapters available worldwide
Battery:	Rechargeable batteries last more than 8 hours
