

# Ozone sensor with bright alarm light

**Notify an entire room immediately!**

The SL series safety indicating lights provide a quick visual reference to the ozone concentration within its surrounding area. The SL series can be used to determine if an environment is within the OSHA limit of 0.1ppm over an 8 hour day. Green light is on when ozone level is below 0.1 PPM and switches to red when ozone level exceeds 0.1 PPM.

## Features

- Ready to use upon arrival (just plug in)
- Stackable color lenses in multiple colors
- Wall mountable
- 1 year warranty
- visible from over 150-ft away
- Power cord included
